A Dominion Franchise.

We have long favored the framing of a uniform franchise in all the Provinces for Dominion elections, and now the time seems ripe for carrying out that idea. As our readers are aware, the qualification of voters in, under the present system, fixed by the Legislature of the various Provinces, and that it varies greatly according to the local conditions. The effect of placing the power of fixing the qualification of voters for Dominion purposes in the hands of the Provincial Legislatures was an experiment which experience has proved to be productive of undesirable results. In Ontario, for example, the local Government has bitterly hostile to that of the Dominion, framed a "franchise" in the interest as they conceived of their party in the Province, and consequently in favor of their party in the Dominion as well, and they are now squabbling with the subject of extending the franchise, as to which they will not consult the class which it is proposed to enfranchise but those only who now possess the franchise. On the face of it, this is a grossly unjust proposition, and the record of the Mowat Government is such that nothing but a partial and discriminatory measure can be expected from them in case they should succeed in the pending contest. If the Ontario were really sincere in proposing to add to the constitution, in the manner which it is obvious it ought to be added to, they, having the power, ought to have done that addition before the election. Thus they would have done an act of justice—not an act which they vaguely promise to do hereafter—and have secured the enlarged constituency an immediate opportunity of pronouncing on their policy—an opportunity which cannot again, in the ordinary course of events, occur until four or more years have expired. But they are the creatures of expediency, and there is something about them that they may abolish the property basis for the franchise and substitute that of money alone, and most of their ideas of government being drawn from Yankee sources.

The undesirable of such a state of affairs is beyond question, and the necessity of the Dominion Parliament preventing Provincial Legislatures from exercising such discrimination as is above shown, in favor of either party, is equally apparent. The Dominion electoral divisions are in many cases widely different from those of the Provinces; the law under which the electoral divisions are made differs materially from the Provincial law; and as the mode of holding the Dominion elections is uniform throughout the Confederation, why should the Dominion franchise for Dominion purposes be a uniform franchise for Dominion purposes? No valid reason can be advanced against this proposition.

There is not one sound reason why the present state of affairs should continue. In the Province of Ontario, the franchise is virtually manhood suffrage and in Ontario a franchise partially "franchise" and partially based on property. The Dominion is one large constituency and there are members for certain divisions, and therefore a uniform franchise is as much a necessity

as a uniform election law: in fact, the latter cannot be said to be complete without the former.

We hold, then, that there should be a uniform franchise for Dominion purposes, and we trust that a measure to that effect will be passed at the forthcoming session of Parliament. The basis of such a franchise ought, in our opinion, to be a property qualification of reasonable amount; and in the Dominion we have a franchise based on the value of the vote from manhood suffrage, and in England we have a striking example of the benefits of a property qualification without distinction as to the position of the property holder, in the municipal election law now in force in that country.

Such a franchise would be correct in principle, judicially fair in operation, and to the advantage, and calmly just towards the Dominion Parliament and the Provinces.

The "Independent" Dodge.

Mr. Vanhook, in North Hastings, and Mr. Sills, in West Hastings, are trying to play the "Independent." They are trying to make people believe that they will, if elected, vote for measures and not for men. Whilst we respect the action of these gentlemen as the strongest possible expression against the Grid cases in the respective ridings for which they have been nominated, we cannot allow them to strut thus in borrowed plumage. Both are known as strong party men. Both have been defeated supporters of the Mowat Government in previous elections. Both are now the nominees of those who have formally declared their confidence in the Mowat Government. Mr. Sills would not have been in the field but for the Toronto Grid Convention, as the supporters of the Government had not nominated a candidate for that constituency. Mr. Vanhook would not have been in the field but for the Toronto Grid Convention, as the supporters of the Government had not nominated a candidate for that constituency.

Why, then, do these party men, who have been defeated in party contests, who have been nominated by their party, now proclaim themselves to be Independent—not-partisans? The answer appears on the face of the facts. They have gained election by exploiting their defeat. They have taught them that no man who avowed himself a supporter of Mr. Mowat can be elected in their ridings. Hence they are "Independents"—anything—for the time being, that will induce Conservatives to vote for them. Reformers ought to be ashamed of such men. To the Conservatives, we say, put no trust in them. No matter what garb they may assume—no matter what professions they may make—Mr. Vanhook and Mr. Sills are out-and-out supporters of Mr. Mowat. As such, let them be dealt with.

The Ferry.

A perusal of our report of the City Council proceedings will show that the Ontario Government did not aim so readily a blow at Belleville as we hoped for, in refusing to grant a proper ferry for the crossing of the City of Belleville, in order to establish a proper ferry between the township of Amabelburg and the City. If Amabelburg desired the City of Belleville to furnish the approach, also, in some quiet place easily reached, and where horses would not be disturbed, but that the waterway was understood that the Busby Island route was preferred.

3. Your Committee were also informed that the Township of Amabelburg would not go to any expense whatever in providing approaches, also.

4. The joint Committee adjourned until Wednesday, the 7th of February, last, at the City of Belleville.

5. Your Committee have given the proposal of the Township of Amabelburg Committee and the communication of the Revere a very careful consideration, and they cannot recommend the Council to go to the cost of expense of building the approaches and the City of Belleville Island.

6. Your Committee informed the Amabelburg Committee that the City would accept of the Township, in the meantime, the use of the present ferry slips.

7. Since meeting with the said Committee, Amabelburg Committee, your Committee the following proposition:

BELLEVILLE JAN. 27, 1893.

Mr. Hickson, the General Manager of the Grand Trunk Railway, having told the writer that he would accept of the Grand Junction right of running a ferry on the Bay of Quinte, I propose, in connection with said ferry, that the City of Belleville should give Mill Island for a period of 20 years free of rent and taxes, dredge out the western channel and give the material to dredge to fill up the creek to be put down the Mill Island to the south of the Island and repair the ferry slip at Belleville, so that the ferry could land passengers.

That in consideration of which, a Company will be formed with a capital of \$25,000, of one thousand shares of \$25 per share, that will undertake to put on a suitable boat, repair and keep in repair, Mill Island and build a bridge from the Island to the main land.

8. Your Committee, believing that it is in the interest of the City and of all parties concerned to accept of the proposal of providing the perpetual lease from the Grand Trunk, the ferry under their charter, they would therefore recommend that upon the proposition of the said Amabelburg Committee, the terms of the proposition and that the details as to rates of ferryage be hereafter settled by the Council and the Company to be formed as aforesaid.

9. Your Committee would further report that they had before them a communication from Messrs. Platt & Holton, in the terms of which they expressed their willingness to refer the ferry to the City as the conditions therein required are beyond the power of the Council to accept of. The Council, on behalf of the City, would respectfully recommend that the same be handed over to the Amabelburg Committee for consideration.

That the Amabelburg Committee have been called by the Harbor Master

to report to this Council, that the motion made by Ald. Dickson, that such motion be not frequently given during the session.

Professor Stokes, F.R.S., on Modern

Scientific Thought

The announcement that His Majesty

the Queen had graciously signified to

the Victoria Institute of London her

consent to receive the volume of its

Transactions, "The Victoria Institute,"

a growing body of its members, held on

the 11th January, the following day.

The Institute, founded to investigate

all scientific questions, including any

subject of science, has been founded

by the Victoria Institute of London

and its members had now held. Dr.

Stokes, F.R.S., Secretary and Fellow of

the Royal Society, and Professor of

Mathematics at Cambridge University, read

the opening. It is, he said, a scientific

body, and its members are not only

interested in the progress of science

but also in the progress of the human

mind. The progress of science is

the progress of the human mind, and

the progress of the human mind is

the progress of science. The progress

of science is the progress of the

human mind, and the progress of the

human mind is the progress of

science. The progress of science is

the progress of the human mind, and

the progress of the human mind is

the progress of science. The progress

City and Vicinity.

No COURT to-day. The thermometer registered 10° below zero last night.

Outlook will hold a trotting meeting on the 12th on Tuesday and Wednesday next.

Mr. A. Oakes, of Shelburne, took \$250 for his share in the drawing in connection with the London Gift Enterprise.

The Congregations of the Bridge Street and Block Street Methodist Churches, will meet on Union, on Monday night.

A CAMPBELLFORD team is desirous of showing glass balls with a team from any place in its vicinity, Belleville inclined.

Two DENNIS celebrated Pantheons, Humpty Dumpty Company, with excellent band and orchestra, are booked for March 29th.

A COLLECTION of picture frames was brought to the Police Station last night by one of the officers, having been thoughtlessly left out by an upholsterer in such material.

A LETTER containing 72 closely written pages and which occupied 2 hours and 40 minutes in reading it, was received here on Wednesday by Mrs. Mosher, wife of Captain Mosher.

It is off to the Europa Hotel and Restaurant, where you can get your crabs, stews, fried chins, pickled pigs feet, Boston baked beans, and hot and cold meals in first class style, all at home.

This Herald says: "The Belleville Philharmonic Society has written to Campbellford to know if a good house could be secured here for a concert, the proceeds of which to go to the Home for the Friendless."

The Gospel meetings of the Christian Workers Association are growing in interest. To-morrow night there will be several short addresses with singing between 8 and 9 o'clock.

Meeting commences at half past eight. Hall over Harrison's Book Store.

Ten "social gatherings" last evening under the auspices of Miss Lodge, was an unequalled success. The attendance was very large and the programme very attractive and enjoyable. "Merrill" is to be congratulated on the success of the entertainment.

The good work in the City Mission building is still going on. The workers met on Thursday last and decided to continue the services on the coming week. D. V. Judson, from the large congregations and the singers of the past week great good and laudable results are expected from these services.

A most important meeting of the Belleville Conservative Association will be held on Wednesday evening at 8 o'clock.

The Remnant list of odds and ends in boots and shoes at Haines & Son's will continue. Many new lines have been placed on the table and stock taking. Some genuine leather boots taking detailed list of kinds and sizes will be had next week.

Mr. F. O. OAKS, formerly Teller in the Consolidated Bank here, and now Secretary of the Hamilton Street Lumber Company, at Lawrence, Kansas, was the recipient of a gold watch and chain at a Xmas present. Frank is extremely appreciated as he devoted several of his distant hours to the cause.

Captain Nims has favored the INTELLIGENCER with a copy of the first Chinese paper, published on this continent. It is called the Chinese American and is edited by Wong Ching Foo. The print is of the best character, while the matter may be entertaining to those who know anything of the language of the Celestials.

The 2nd anniversary of the City Mission will be held on Sunday, Feb. 18, when the anniversary sermon will be preached in the City Mission building at 3 o'clock p.m. by the Rev. M. W. McLean M. A., President of the Methodist Association.

The anniversary meeting will be held on the Thursday following, Feb. 22nd, in the same place (D. V.).

Mr. H. H. Nelson, of Nelson & Sons, Liverpool, has been named as the city representative of the firm.

The firm named as the city representative of the firm is the Liverpool commission business and are the Liverpool agents of Mr. F. R. Lingham. Mr. Nelson was shown around by Aid. Pope, and during the afternoon witnessed the curling match.

He left for Toronto this morning and will visit Nova Scotia before his return to England.

Friends of the Methodist Church of Canada at Zion Hill, Toronto District, are very much favored in securing the services of Prof. Green, of the D. and D. Institute, at his tea-meeting on Tuesday night, 20th inst. Zion Hill is about two miles out of the city, and Prof. Green's excellent renderings will be something new. The programme is very promising in other departments.

This horse, in many instances, exhibits a sagacity that almost leads to the belief that the noble animal possesses thinking powers.

Mr. S. Clark, of the City, of Toronto, is the possessor of a horse that exhibits remarkable sagacity. Mr. Clark waters his animals from a well, by the aid of a pump, and when in want of water, this animal takes the pump handle in its mouth and proceeds to pump water for himself.

Does not seem willing to become the "drawer of water" for the rest of the animals, as he will drop the pump handle from the front of the horse instead of using the result of his labor to draw the water away, to resume pumping for his own use.

Thurs. Feb. 10, 1883. Capt. J. N. Mosher, formerly of this city, arrived at St. Catharines on Jan. 29th, 1883, from Shields, Ontario.

Captain Mosher reports as follows: Shailed from the Tyne on Jan. 1, 1882, crossed the equator in the Atlantic on the 21st Oct. in long. 24. 26. 30; west; passed through the Straits of Laineur Nov. 21st; abreast of Cape Horn on the 24th Nov. OPENING THE BALL.

The Opposition Leader Speaks in

A LIVELY SPEECH BEFORE A LARGE AUDIENCE.

THE MEETING ENTHUSIASTIC.

(From our own Correspondent.)

CANBERRA, Feb. 12, 1883.

Learning that the hon. Mr. McLean, M.P., leader of the Opposition in the Ontario Legislature, at the G.T.R. depot here, to-morrow, Mr. McLean came from Campbellton, to open the ball, and to-night, and on his way out.

The liveliest kind of a speech may be expected when the river breaks up. Even now merchants and business people, who are located on the west side of Front street, are beginning to think of removing the contents of their cellars. There is no doubt that for that, however.

Mr. McLean, a carrier, who had resided in the city for several years, was found dead in his bed this morning. The cause of death was heart disease, which had been suffered for a month of time. Deceased was a widow, and had a son and one daughter, who was in Sidney, and was about 50 years of age. He was a brother-in-law of Mr. William Scott.

The Church of England building recently erected in the 12th con. of Rawdon, will be opened on Thursday, the 22nd inst. There will be two services, one at 11.30 a.m., with a sermon by the Rev. Mr. Scott, and at 3.30 p.m. The offertory will be devoted to the building fund. Rev. Messrs. Burke, Farnham and other clergy will officiate.

Mr. William Scott, having had some spare time during the winter, he has put it to good use. Though a carriage painter, he is yet quite handy with tools, and as a result of his skill in their use, he can now show a bed room set with a neat and attractive. The bedstead, wash stand, dressing table, and dresser, are painted in white and ornamented with gold leaf, which makes them appear cheerful and pleasing to the eye. The woodwork is very stylish and the finish is workmanlike. Mr. Scott is deserving of commendation for the skill and taste displayed by him.

A departure from Trenton, last evening, announced a desire on the part of the currier of that town, to meet with the currier of this city, there to-day, to contest for the "Pop Quiz." As the Trenton people had acted so gentlemanly in making a response for the first competition for the cup, it was decided to accommodate them and this morning two quarrels left here to take part in the second meeting. The rivals are as follows:

Joe D. Clarke, J. Bonar

E. H. Bell, D. M. Waters

F. Jones, J. D. Gordon—Skip.

Last evening, communication was bandied to the Council of the City of Trenton, asking that the City Hall be granted for use to an evangelist who proposed to hold services there, beginning on Sunday evening next. It was stated that the hall was wanted for a month, at \$2.00 per day, the same as was charged former evangelists, and the hall could be let for further periods in the meantime. When it was ascertained that it cost over \$5.00 to heat and light the hall, the afternoon thought it was about time to draw the line, and to say "they drew it." The proposition made could not be entertained, in any event at last night's meeting, yet, for any local matter or worthy object, anybody can secure that hall for \$5.00 per night. The \$2.00 days are over.

YESTERDAY'S session of the Ministerial Association proved very interesting. There was a full attendance of members. On receipt of the resignation of the President (Mr. Turnbull), Mr. McLean, Vice-President, was declared President, and Mr. Williams was elected Vice-President. A minute was adopted expressing the regret of the Association at the departure of Mr. Turnbull, which was as follows:

Resolved, That the Ministerial Association of the City of Belleville, having heard from their esteemed President (Mr. Turnbull), that he has decided to accept a call from the Baptist Church at Trenton, to remove from the city, desire in this Minute of the Association to record their high appreciation of the services rendered to the city and the Church by their respected Brother during his term of office, and to say that as a personal friend, Ministerial Brother and Christian worker, they have ever found him kind, true, and helpful, and that they know that his removal to another sphere of service will be a loss to the city, and as one to be missed by the city, they tender their warmest regards to him, and hope that he will continue to be a blessing to the city, and as one to be missed by the city, they tender their warmest regards to him, and hope that he will continue to be a blessing to the city.

Mr. McLean presented an interesting paper on "The Sleep of the Soul," which was vigorously discussed, and the subject presented a very satisfactory and useful exchange of papers and magazines is successfully carried out between the individuals members. At the next meeting the subject of "The Sleep of the Soul" will be presented. The subject of "The Sleep of the Soul" will be presented.

WATSON'S PROHIBITION.—Toronto, Feb. 12.—Lakes, far to clear, milder and southerly to southerly wind, mild weather during to-day. A general thaw will be in throughout southern Ontario.

METROPOLITAN UNION.—The Quarterly official meeting of Belleville Ontario Circuit, comprising Bridge St. and Kingston Road Churches, met last night, Tuesday, at 7.30 p.m. The meeting was held at the residence of Mr. J. H. Smith, who was present and acted as secretary. The following resolution was adopted: "Resolved, That the members of this Quarterly Official Board, approve of the basis of Union." After the whole subject had been discussed, two members voted for the resolution, and two against it. The objections to basis of Union being to the classes referring to the appointment of General Superintendents, and the position of the laity in the Annual Conference.

REVEREND, Farnham, visited on Feb. 12, to match that was set by the Diamond Dye. Farnham will say only for 10.

Beware of Imitations

Since Dr. Thomas' Electric Oil has been celebrated, a number of unprincipled persons have been led to imitate it, and to sell as Dr. Thomas' Electric Oil the genuine Dr. THOMAS' ELECTRIC OIL. Beware of these similar names, and of the fact that the imitations may fail in the healing properties of their own medicine; they would, like honest men, give them the name of the man who has made them, and the reputation of another; but as they know their preparations have no merit, they sell to the most unprincipled means of securing a sale.

Electric. We therefore ask the public who purchase to see that the name Dr. THOMAS' ELECTRIC OIL is written in large characters, and the signature of NORTHERN & LYMAN, the proprietors for Canada on the back.

BELLEVILLE, TUESDAY, FEB. 27.

The Front Works

The annual report of the Minister of Public Works contains highly interesting particulars of the Trent Valley works, those works which the Mackenzie Government and the Mowat Government would have destroyed, in order to profit their friends, thus rendering the Trent Valley Canal, which is now being built by the Government, an impossibility. We quote from the report as follows:

TRENT RIVER NAVIGATION.

The booms, piers and slides and all such portions of the works as are connected with the lumbering operations on the River Trent at Chisholm's Rapids, Ramsey's Falls, Middle Falls, and Crook's Rapids, were transferred to a company formed purely for the management and maintenance of those works, with the right of leaving tolls thereon, at the rate of five shillings per cord, at each of the slides, except at Chisholm's and Crook's Rapids, where the works constructed do not facilitate the descent of timber.

This rate was altered by an Order in Council, on the 18th December, 1866, fixing the tolls to be levied at Ramsey's Falls, Middle Falls and Healy's Falls, at one cent for each log of 13 feet in length, and proportionate area of pieces of greater length; and one dollar on each cord of square timber.

The Company are not liable for the renewal of the works, in case of their failure from decay of material, or their destruction by fire, flood or any other cause. It is their duty to keep an exact account of all the moneys collected by them, and to transmit the same to the Minister of Public Works, as provided by the Orders in Council passed on the 18th December, 1866.

The extraordinary repairs which from time to time were required have been executed at the expense of the Government, as also new works at localities other than those mentioned.

The following table gives the distances of navigable and unnavigable reaches:

Correspondence.

The following repairs have been effected at the Department of Public Works.

At Fenelon Falls, while making temporary repairs, it was ascertained that the slide was in a very bad condition, and repairs were initiated, which could not be completed, as it was not desirable to expose the credit voted.

In the Saugoy River, a great number of saw logs sunk in the bed of the river, and which impeded navigation, were removed. There is now a depth of 5 feet at low water. At Bobogogen the Department has removed obstacles hindering navigation at the entrance to the canal. At Buckhorn, repairs are being made at the head of the slide.

At Lakefield the dam and slide require considerable repairs. At Peterborough, work is going on for removing the refuse and saw dust from the river near the town.

At Little Lake it is necessary to renew the boom.

At Chisholm's Rapids the guiding boom and the slide planking were repaired. At the River Chisholm the refuse and saw dust have accumulated in such quantities that it is necessary to remove them in order not to hinder the running of steam boats.

At Hastings, general repairs to the slide have been effected, and the upper portion of the piers has been renewed. It is necessary to have the guiding boom repaired.

At Chisholm's Falls considerable repairs are now being made on the slide, and a coffer-dam had to be constructed at the head of the slide, the planking of which has been repaired.

At Middle Falls no repairs have been made, but next year they will be indispensable.

At Chisholm's Rapids some repairs to the dam have been made, and the slide is also in need of repairs.

A Moral Postscript.

The Ontario, measuring the INTELLIGENCER's grain in its own full bushel, had the audacity to publish this morning an extra declaring that we had uttered a falsehood in stating that Mr. Dalton McCarthy, M. P., is not an Orangeman. As seeming proof of our untruth, it publishes an extract from an address by the Grand Officers to the Orangemen of Ontario regarding the South murder, one of the signatures appended to which is that of "Dalton McCarthy, Right Worthy Grand Master of W. O."

This is a base untruth, wilfully intended to deceive the late desperate resort of the defunct trickster and trafficker in favor for the purpose of swaying more base passions and prejudices. The Dalton McCarthy who signed the manifesto above alluded to was the father of Mr. Dalton McCarthy, M. P., which latter gentleman is not and never was a member of the Orange Association, just as we previously stated. Such a journal as the Ontario is a moral pestilence in any community. It ought to be shunned by every one who deprecates offences of race and creed.

Editorial Briefs.

The Ontario's lies as Mr. Dalton McCarthy being an Orange Grand Master, and as to Mayor Lingham and the flag, having been made to do duty till the last moment will now probably be retracted. The repetition in last night's issue of that regarding the Mayor, with a four line contradiction in the same issue, is absolutely infamous.

Nobody here in the Northwest sympathetic with this view of things. There is universal pride and satisfaction at the energetic manner in which the Syndicate is doing its work. Let the Globe do all it can to promote an influx of settlers. We do not propose to found a nation after the slow manner of the east. This is the region where the prediction is to be fulfilled, 'A nation shall be born in a day.'"

Dominion Parliament.

FIFTH PARLIAMENT—FIRST SESSION.

HOUSE OF COMMONS.

OTTAWA, Feb. 26.—In the House of Commons to-day Sir Hector Langevin presented the report of the Civil Service Commission, and the names of persons appointed or promoted under the Civil Service Act. Sir Charles Tupper presented the report of the Department of Railways and Canals. Two public bills were introduced—Mr. Riopel's, to amend the Consolidated Railway Act by extending the possible period of agreement between railway companies from 21 to 60 years.

Among the papers called for were several of interest. Mr. Foster moved for a statement showing the importation and consumption of liquors in the several Provinces from 1868 to 1882 inclusive. Mr. Blake moved for correspondence between the Government and representatives of the Licensed Victuallers on the subject of liquor legislation. In moving for a copy of communications or representations to the Government on the subject of simplification of the subject of transfer of lands of the North-West, Mr. Blake stated that a simplified system was now in operation in the Australian colonies, and was found to work well. No objection was raised to granting the return to the Government, but Sir John Macdonald said he was not sure that the system in use in Australia would work well in the North-West. Two legal gentlemen had made representations on the subject to the Government, and had prepared a bill which was now under consideration of the Minister of Justice.

The House adjourned at 4:15.

In the history of medicine no preparation has received such universal commendation for the alleviation of the sufferings of the human race as this simple remedy. It is a great boon to the people. It is a great boon to the people. It is a great boon to the people.
